# HYLINE HYGIENE RANGE

**HOBART**

## **HOBART HYLINE RANGE**

For many decades, HOBART has been developing dishwashing technology that is synonymous with innovation, economy and quality. Every day, thousands of satisfied customers all over the world are using HOBART products.

The design and quality of the dishwasher are key factors for perfect wash results. The quality of the water and the properties of the detergents used in the process also play an important role. Consistent good results can only be achieved if all these factors are taken into account and the right products are chosen.

With the HYLINE hygiene range, HOBART meets the demand of its customers for an all-in-one solution from a single supplier. The HYLINE products are suitable for use in all types of machines, from compact glasswashers to utensil washers.

Depending on the hardness of the water and the dirt to be removed, users can choose a HYLINE product that is optimised for their requirements. The HOBART HYLINE thus guarantees perfect washing and drying results for all types of wash ware such as crockery, glassware and cutlery as well as plastic and aluminium utensils.

By using high-quality detergents in high-quality dishwashers, you can achieve perfect results that measure up to your expectations.

### **YOUR HOBART TEAM**

**HOBART**

## **YOUR BENEFITS**

### **EXCELLENT WASH RESULTS**

The HOBART HYLINE products are made from quality components specially selected for brilliant wash results and outstanding hygiene.

### **TOP-QUALITY PRODUCT FORMULATIONS**

The HYLINE products are tailor-made for use in HOBART dishwashers. This ensures economical and efficient machine operation and outstanding cleaning results.

### **EXCELLENT YIELD**

HOBART detergents and rinse aids are extremely effective and therefore economical. You save money and protect the environment.

### **EASY DOSAGE**

HOBART warewashers are equipped with an integrated dosing system for liquid products as standard. This guarantees easy handling and accurate dosing of detergents and rinse aids.

### **OPTIMISED PRODUCT RANGE**

The HYLINE range of top hygiene products has specially been developed to meet the requirements of the catering trade. The streamlined product range makes choosing the right chemicals easy.

### **CLEAR CONTAINER LABELLING**

As the containers are clearly labelled and colour-coded, it is virtually impossible to confuse detergent and rinse aid, preventing any downtime due to the use of the wrong product.
