

IT'S ALL ABOUT JUGS

M-Line | Excelso | Aromatic B-Series | Thermos Jugs
Animo equipment for jugs of fresh coffee.

ANIMO

COFFEE ANYONE?

With only the touch of a finger,
the M-line coffee brewer is activated.
Somewhere in the stainless steel housing,
water is heated up to the exact
right temperature.
Once it starts to pour and is sent through the ground coffee
beans, the magic happens.
The smell of fresh coffee is released.
The irresistible aroma takes over the room...

Wherever people get together, one of the first questions asked is "Coffee anyone?" A freshly brewed jug of coffee is part of how things should be. Starting off a productive day of work. After the completion of a job done together. During meetings and presentations. At the athletics club or in the arts centre. During... oh, you know best!

Coffee makers with jugs

Animo has developed and produced coffee makers for over 60 years. In this brochure, we highlight coffee brewers with jugs. Professional equipment that allows you to prepare the perfect cup of fresh filter coffee in no time. Or, if the situation calls for it: up to 288 perfect cups per hour. Animo coffee makers with jugs make everyone the perfect host. Serving and maintaining our brewing equipment is just as logical as it is easy.

Everything is possible

Do you prefer large or small jugs? Glass jugs or thermos jugs? Do you want a machine with a water connection or with manual filling? With Animo, almost everything is possible. Several products even come in various colours to choose from. Do you prefer stainless steel combined with sheer black or playful blue? The wishes of the modern coffee lover are our starting point for a high-quality selection.

Animo makes hospitality easy

Animo equipment is very simple to operate. Smart options lead to a hassle-free, tasty result. This makes it fun for you to be the host.

- + Jug detector: the brewing process starts and stops automatically when the jug is taken away or put back at its place.
- + Leak stop option: prevents the filter from dripping.
- + Coffee-ready signal: an audio alert indicates when the coffee is ready to pour.
- + Touch control for optimal user convenience
- + Dry-boil protection that can be reset externally.

- + The semi-automatic machines are equipped with a manual filling point on the front. This enables you to fill the machines easily
- + Automatic machines are equipped with a water connection
- + The water reservoir can hold 2.7 litres

- + A jug detector starts and stops the brewing process.
- + The leak stop option closes the filter basket, preventing dripping after the jug has been removed.
- + The machine gives an audio alert when the coffee is ready.

- + M-Line equipment is also available with a hot water tap for making tea, hot chocolate, soup and more

- + The convenient touch control buttons at the top of the machine ensure ease of operation.
- + The number of cups of coffee can be pre-set in our automatic machines by using the touch control buttons.
- + Descale indicator
- + Pre-wet brew possible

ANIMO M-LINE

M-line coffee makers with glass or thermos jugs

The Animo M-line is a very complete serie of brewing equipment, based on a much-praised contemporary design. There is an M-line for every kitchen, breakfast room, bar or canteen. For specific details on each model: see the line-up on this page.

Coffee makers with glass jugs

ANIMO EXCELSO

Excelso: Pure Functionality

The Excelso coffee maker gives you the opportunity to make a full jug of freshly brewed filter coffee in no time. The machine is made with high quality stainless steel. Water is filled manually. And just like the M-line brewers, these machines are equipped with the most up-to-date functions. What do you think of:

- + Self-regulating hot plates
- + Hot plates that can be used separately
- + Dry-boil protection

Excelso T

The Excelso T maker is designed to brew coffee directly into a thermos jug. The 2 litre stainless steel double-walled thermos jug is a standard accessory. Of course, any additional thermos jugs can be purchased separately.

Excelso Tp

The Excelso TP is especially suitable for the thermos jug with pump.

Suitable for universal use

The Excelso range is available in three universal models. Since we have left out special features like jug detection, descale indication, pre-wet brew, etc. we are able to offer a greater value for this product. In combination with the low maintenance costs and its long life-span, this makes the Excelso an investment you will not regret.

ANIMO

AROMATIC B-SERIES

Specifically for hard water areas

Characteristic of the Aromatic B-series coffee machines is their ingenious open-boiler system. This makes the brewers less susceptible to scale deposit and makes descaling easier. This is a perfect solution in areas with hard, calcareous water. It not only enhances the life-span of your machine, but also the coffee aroma.

- + Hot plates can be used separately
- + Dry-boil protection is resettable externally

Aromatic B 100

A compact stainless steel brewer with two glass jugs. You can make a second jug of coffee while the first one is kept warm and flavourful on the second hot plate. The water is filled up manually.

Aromatic TVB 100

The TVB 100 brewer is designed to brew coffee directly into a thermos jug. This way, the temperature and aroma are better maintained. The coffee maker is adjustable to any height, so it is very suitable for all common thermos jugs sizes.

B 100

TVB 100

ANIMO ANYWISE

Animo equipment is a wise investment in every sense. The stainless steel housing is not only extremely durable, but also entirely recyclable. All of the other components are also made of reliable materials and have a long life-span. Moreover, Animo pays attention to energy use. The double-walled thermos jugs are extremely heat insulated. All of the energy ends up in a nice, warm cup of coffee. And that once again gives you new energy!

ANIMO THERMOS JUGS

Warmly recommended: Animo Thermos jugs

A tough work meeting ahead? Activities on location? Guests trickling in? A proper thermos jug prepares you for any situation. Animo thermos jugs are perfect for coffee and other hot drinks. But did you know they can also keep your refrigerated drinks cool very well? Each model is stylish, durable, and easy to clean!

08436

08419

08420

Thermos container

The stainless steel container has a capacity of 2.4 litres and is equipped with a no-drip tap, gauge glass and brew through lid with blender. The blender ensures an optimal extraction in the container

Thermos jug with pump

A delicious warm cup of coffee is dispensed with just a touch of the lever pump. No lifting is necessary, and no mess all over the place. Available in 2.1 litre with stainless steel or glass inner lining. Equipped with blender for optimal extraction in the jug.

Thermos dispensers

Solid, classic shape. These stainless steel thermos jugs are dishwasher safe. Available in 1, 1.5, 1.85 and 2 litre models.

Jug with filling lid

There is nothing better than this stainless steel jug with filling lid to quickly serve fresh coffee! Its 1.8 litre volume is sufficient for 15 cups.

ANIMO OPTIONS & ACCESSORIES

An inviting serving table

Every coffee drinker has his/her preferences. That is why there are often loose sugar packets, coffee stirrers and coffee cream on the table. Sometimes, tea bags in various flavours are added as well. Animo helps you to keep your serving table clean, well-organized, and inviting.

Thermos jug buffet

Stylish and practical presentation of hot drinks for serving table arrangements. Suitable for both types of the thermos jugs with pump.

Thermos jug buffet

Ingredient box

A beautiful matching stainless steel ingredient box with three compartments. For the storage of sugar, milk and spoons (for example).

Chauffe-tasses KKWn

Un café préparé avec soin mérite d'être servi dans des tasses préchauffées. Un chauffe-tasses conserve mieux la température et le goût. De plus, les tasses et les soucoupes sont ensemble, toujours propres et sèches..

Ingredient box

Naturally, Animo also offers the following accessories:

Filter paper

Basket filter paper 90/250, suitable for all Animo coffee brewers with jugs.

Descaling agent

Specifically for Animo coffee brewer equipment.

Coffee deposit remover

Perfect for cleaning thermos jugs and places that are difficult to reach.

Cup heater KKWn

Filter paper

Descaling agent and coffee deposit remover

ANIMO

We make premium-quality coffee machines and equipment that are user-friendly, durable and convenient to maintain.

Our machines deliver a wide range of fresh, hot beverages time after time. Everything from freshly ground espresso, cappuccino or latte macchiato to tea, hot chocolate and instant soup.

We've been doing business for over 60 years in more than 75 countries worldwide. Because good coffee takes a good machine. And a good machine takes experience, expertise and dedication.
