THE OPTIFRESH NEXT GENERATION

THE OPTIFRESH FROM ANIMO

OptiFresh Bean NG

OptiFresh Bean NG

OptiFresh NG

OptiFresh NG

Fresh Brew has been given a new look: the OptiFresh NG from Animo. The machine with a distinctive design. For delicious fresh filter coffee and a range of coffee varieties, which you can serve with one touch of a button. The OptiFresh is simple to use and just as easy to maintain. So discover the Next Generation in Fresh Brew now.

MACHINE WITH TASTE

Nothing can beat the smell of freshly made filter coffee. With the OptiFresh you can brew all varieties: from pure black and decaf to cappuccino and latte macchiato. There are two models of OptiFresh: with or without a coffee grinder. The OptiFresh BEAN grinds the (visible) fresh coffee beans from the canister while you wait. Fancy something else? The OptiFresh also brews delicious instant products such as chocolate. **Tasty!**

PURE EASE OF OPERATION

The OptiFresh is quick to install and can be used anywhere. You have no fewer than twelve keys to set your favourite drinks. Moreover, you can adjust the strength to your own taste. The height of the cup tray can be adjusted and it is also suitable for thermos flasks. Thanks to its large canister, you don't have to fill the machine very often. Also handy: your OptiFresh is easy to keep clean.

Fresh Brew Unit

Permanent stainless steel filter

Ceramic burrs

PERMANENT STAINLESS STEEL FILTER

Quality comes first. The OptiFresh is made of high quality components and is thoroughly tested. The result: a reliable machine that needs hardly any maintenance. Instead of using filter rolls, the OptiFresh has a permanent stainless steel filter. Leading to less waste and excellent performance. Talking about high quality: the OptiFresh Bean's grinder is Swiss made, with ceramic burrs that last a lifetime.

DESIGN CLASSIC

The OptiFresh is the new face in Fresh Brew. A pleasure to the eye thanks to its clean lines and timeless stainless steel. With the OptiLight (LED) lighting you give the machine your own look, matching your own style. Winner of the Good Design Award 2011, but already a design classic!

Base cabinet with cooling unit for dispensing cold water from the machine. Including 1 drawer and lockable door.

Coin mechanism. Suitable for euro coins and coffee tokens.

Coffee cup heater. Standard with saucer holder.

Various accessories are available for the OptiFresh, including base cabinets, cup warmers, stainless steel cup dispensers, water filters, coin mechanism, money exchanger and cleaning agents.

SUSTAINABLE CHOICE

With the OptiFresh you are making a responsible choice. Stainless steel is very strong, completely recyclable and therefore sustainable. And, thanks to its high quality components, the OptiFresh has a long life span. Moreover, the machine is energy efficient. The smart Energy Save Mode switches the OptiFresh off when no coffee is made for some time. The OptiLight lighting is low power. The stainless steel boiler is insulated to save even more energy.
